Save money with FAB 3000 "Cam on Demand"

(San Diego, CA) – Numerical Innovations, LLC (NI) announced it has released a special licensing technology for its popular CAM software tool "FAB 3000" which will allow users with smaller budgets the ability to use its software as a service (SAAS).

More to come.

About Numerical Innovations

Numerical Innovations, LLC was founded based on the industry need for easy to use, aesthetically pleasing software tools that are clever and accurately facilitate electronic designs for manufacturing. Utilizing an advanced, proprietary C++ development platform called Universal Tool Platform (UTP) created in-house, along with their experience developing a wide variety of commercial and custom EDA tools; Numerical Innovations, LLC has been able to successfully enter the market with tools providing a common user interface (UI) model and Interoperability, which will continue to satisfy customer demand and gain the reputation of producing easy to use, high quality tools.
